LIFESMARTZ

www.lifemartz.originationsite.com

A site to enable young people from different backgrounds to conduct debates and help one another with confidence building and reaching goals in life.

In West Bowling, Bradford, many young people are often misguided and unaware of opportunities available to them. Their parents are illiterate and unable to assist them in making good decisions. Many end up in non-nurturing environments. I want the site to act as a portal for young people of different backgrounds to voice their opinions and receive support and encouragement. The name 'Khan' has always been associated with honour and integrity so I want to draw on that tradition to show the youth of West Bowling, the different routes that can be taken.
